This **SPECTRUM LICENCE** ("the Licence") is issued by the **Turks and Caicos Islands Telecommunications Commission** ("the Commission") in accordance with Section 35 of the Telecommunications Act 2021 to **STARLINK CARIBBEAN, LLC**, a company duly registered in the Turks and Caicos Islands ("the Licensee").

Interpretation

1. In this Licence unless the context requires otherwise:

"Assigned radio spectrum" means the radio frequencies assigned in the Schedule;

"Commencement Date" means the date on which this License comes into force;

"Harmful interference" means interference that is or is likely to: (a) cause loss or damage to any person; (b) impair the normal operation of a licensed radiocommunication service or apparatus; (c) corrupt a message conveyed by any such service or apparatus (d) endanger the functioning of a radio navigation service or of other safety services;

"Interference" means the prejudicing by emissions or reflections from the Licensee's radiocommunication station or apparatus of any of the forms of electromagnetic energy or the fulfillment of the purposes for which a terrestrial technical system is installed or maintained;

"International standards body" means the International Telecommunication Union (ITU), the International Organization for Standardization (ISO), the International Electrotechnical Committee (IEC), the American Standards Organizations, the European Standards Organization and any other body that may be specified by the Commission to be an international standards body;

"Issue Date" means the date upon which this licence was signed by the Chair of the Commission;

"Licensed Network" means the network operated by the Licensee pursuant to a licence granted under Part III of the Act;

"Licensed Service" means the services authorized to be provided under the Licensed Network;

"Act" means the Telecommunications Act 2021 and includes the regulations made under it;

"Radiocommunication station" means a site upon which radiocommunication apparatus is deployed, including any vehicle, ship, aircraft or satellite;

"Spectrum Plan" means the Turks and Caicos Islands Table of Frequency Allocations published by the Commission under the Act; and

"Technical Conditions" means the conditions relating to radiated power limits, technical standards, modulation techniques or other characteristics established by international standards bodies that apply to the use of the assigned radio spectrum.

2. Any word, phrase or expression used in this Licence shall, unless the context requires otherwise, have the same meaning that it has in the Act.

3. Words importing the singular shall include the plural and vice versa. All references to legislation are deemed to refer to such legislation as amended or re-enacted from time to time.

4. Where there is any conflict between the provisions of this Licence and the Act, the provisions of the Act, shall prevail.

514
fms

Scope of the Licence

5. The Licensee is authorized to use the assigned radio spectrum in accordance with the Spectrum Plan for the operation of its Licensed Network and the provision of its Licensed Service. The Licensee may not use the assigned radio spectrum for any other purpose.
6. The Licensee is authorized to use the radio frequencies in its assigned radio spectrum for the period of validity mentioned in the Schedule for each of the radio frequencies.
7. This Licence replaces any spectrum licence that may have been granted to the Licensee by the Commission or any other person in the past.

Payment of Licence Fees

8. The Licensee shall pay to the Commission in respect of the radio frequencies in its assigned radio spectrum, the fees that are applicable to those frequencies under the Telecommunications Fee Structure Regulations.
9. The regulatory fee in respect of the radio frequencies assigned, shall be paid at the time of the issuance of the spectrum licence and each year following on the anniversary date of the issuance of the spectrum licence for the remaining years that the spectrum licence remains valid.

Use of Spectrum and Apparatus

10. The Licensee shall ensure that its use of the assigned radio spectrum authorised by this Licence does not cause harmful interference to any other licensed radiocommunication service or radiocommunication apparatus.
11. The Licensee shall ensure that its radiocommunication apparatus are adequately protected from interference that may be caused by other radiocommunication stations and apparatus operating in the same geographical area or radio frequency band, or in adjacent geographical areas or frequency bands.
12. The Licensee shall ensure that its use of the assigned radio spectrum authorised by this Licence does not cause any danger to the public.
13. The Licensee shall ensure that its radiocommunication service and apparatus complies with relevant Technical Conditions.
14. The Licensee shall assist the Commission in coordinating and managing the efficient use of radio frequencies with neighbouring countries.
15. The Licensee shall obtain all consents and approvals required under the Turks and Caicos Island laws before the commencement of any installation of its radiocommunication station or apparatus.
16. Where the Licensee's radiocommunication station or apparatus causes the emission of harmful interference or causes any other radiocommunication station or apparatus to emit harmful interference, the Licensee shall take such steps as the Commission may direct to remove the source of such harmful interference and furnish such information as the Commission may request concerning the interference. Before making a direction, the Commission may consult the Licensee or any other person that it considers may be affected by the direction.
17. The Licensee shall investigate immediately upon being notified in writing by the Commission, any complaint alleging that harmful interference has been, is being or is about to be emitted by its radiocommunication station or apparatus.

18. The Licensee shall keep its radiocommunication station or apparatus in a neat condition within a clean working environment and according to the manufacturer's recommended specifications to reduce the likelihood of damage to the equipment, unintended interruption of service, and risk to public safety and the environment.

19. The Licensee shall ensure that all persons using its radiocommunication apparatus are made aware of the conditions of this Licence and comply with those conditions.

20. The Licensee shall keep accurate, up to date and detailed records of the operation of its radiocommunication apparatus and shall make this information available, promptly and without charge to the Commission.

21. The Licensee shall notify the Commission of any proposed material change to its radiocommunication station or apparatus and shall provide such information as the Commission may require for the purpose of assessing the effect of such change.

22. Upon receiving reasonable prior notice, the Licensee shall allow the Commission to inspect its radiocommunication station or apparatus and shall provide such assistance as the Commission may require verifying that the radiocommunication station or apparatus are in compliance with the conditions of this Licence.

23. Upon receiving reasonable notice, the Licensee or the person who is in possession or control of the radio – communications apparatus, shall give access to the Commission to facilitate the protection of the radio communication station or apparatus where it is deemed to be in the interest of national security or the public interest to do so. This does not relieve the Licensee from its obligation to protect its property.

24. The Licensee shall exhibit all notices and instructions given to it by the Commission at its radiocommunication station.

Surrender of Licence

25. The licensee may surrender this Licence or any assigned frequencies authorized for use under the Licence. Surrendering this Licence or assigned frequencies may not result in a refund of fees paid to operate the licenced services or frequencies authorized under the Licence.

Remedies for Non-Compliance

26. In the event of any failure by the Licensee to comply with the conditions of this Licence, the Commission may take such action as it deems appropriate, including fines, daily penalties for continuing offences, as well as suspension and revocation of the Licence, in accordance with the provisions of the Act.

27. Where the licensee's business license is canceled or revoked, the Commission will revoke the licensee's spectrum license.

Information Requirements

28. Not later than the end of the period of three months beginning with the day after the end of each financial year, the Licensee shall furnish to the Commission a report of its activities during the past financial year.

29. The Licensee shall furnish to the Commission in such manner and at such times as the Commission may request in writing such information related to the activities of the Licensee under this Licence including annually audited report of its operational finances as the Commission may reasonably require in the performance of its functions.

Schedule

[Assigned Radio Spectrum]

Note: “the schedule may be updated from time to time as new Spectrum is assigned to the Licensee”

License Services	Frequency Band	Typical Assigned Frequency (MHz) & Bandwidth	Type of Service	Coverage Area	Emission Power	Period of Validity	
						From	To
Satellite Network or Service	Ku Band	14000–14500 (UL) Earth-to-Space 500 MHz (Shared)	VSAT ESIM	National	Max EIRP/Carrier : 48 dBW	August 12, 2026	August 12, 2041
Satellite Network or Service	Ku Band	10700–12700 (DL) 2000 MHz Space-to-Earth (Shared)	VSAT ESIM	National	0.00dBW	August 12, 2026	August 12, 2041

1. LIMITATIONS ON USE

The Stations using the assigned frequencies shall only use the following:

- Frequencies specified in this assignment, which are issued on a shared, non-exclusive basis.
- Use the power not exceeding that specified in the Effective Isotropic Radiated Power (EIRP) in this Frequency Assignment.
- Use power density not exceeding that specified in the Spectral Power Density of the equipment.
- Use the classes of emission specified in the **ITU Radio Regulation**.
- Satellites and stations consistent with its ITU filings.

2. The Licensee VSAT Earth Station Network is required to comply with Resolution 22 resolves 3 of the ITU WRC-19.

3. ESIM operations shall be consistent with:

- The ITU Radio Regulations;
- Relevant international standards governing satellite communications;
- Applicable spectrum management and interference mitigation requirements established by the Commission.

In particular, ESIM operations in the Ku-band and Ka-band shall align with internationally recognized regulatory frameworks, including those reflected in ITU Resolution 123 relating to the use of Earth Stations in Motion.

The Commission may establish additional licensing or technical conditions where necessary to ensure the efficient use of spectrum and the protection of other authorized radio services.
